1. Industrial land supply refers to land parcels that are planned for industrial use or development.
2. This category refers to land that is not part of the industrial land supply due to physical and/or environmental constraints. These areas exclude developed land.
3. Strategic land refers to areas such as airports, ports and defence sites that may contain land for industrial use.
4. Development areas and Enterprise opportunity areas identify areas for industrial use and form part of the South East Queensland Regional Plan 2009-2031.

Notes:

This map shows the industrial land supply and constrained industrial land.

This map is an output of the Industrial Land Monitoring Program for SEQ and is to be interpreted in conjunction with that Program. Information about the Program's methodology can be viewed in the industrial development activity profile and explanatory notes.
